

TAROT GUIDEBOOK

BASED ON THE TAROT INTERPRETATIONS
OF ARTHUR EDWARDS WAITE

MODIFIED, EXPANDED, AND EDITED
BY PHILIP YOUNG, PHD

Introduction

Reading Tarot cards can reveal insights into your past, present, or future. The premise is simple: the Querent asks a question, and then the Reader draws the cards and interprets the results.

Tarot reading has been used for divination since the 1700s, and every Reader develops his or her own methods for interpreting the cards. There are some fundamentals, but Readers are encouraged to explore and develop their own unique approach.

The Deck

The Tarot deck contains seventy-eight cards: twenty-two Major Arcana and fifty-six Minor Arcana.

The Major Arcana represent the journey through life, and the archetypical stages that everyone experiences. Everyone begins life as the Fool, and ends life as the Fool.

The Minor Arcana represents the actions, thoughts, feelings, and material struggles that we all encounter in our lives. The Querent seeks to learn from every experience.

The Minor Arcana are made up of four suits and fifty-six cards, like a traditional deck of playing cards. Face cards consist of Knave/Page, Knight, Queen, and King. Each suit is associated with one of the elements. Clubs/Wands/Staves corresponds to Fire, Cups to Water, Coins/Pentacles/Disks to Earth, and

Swords/Spears/Arrows to Air. The cards in each of the suits take on the symbolism and essence of the corresponding element: Fire/Action, Water/Emotions, Earth/Work, and Air/Thought.

Spreading the Cards

A spread is a layout for the Tarot cards which provides a framework for the reading. Spreads often follow a predefined theme where the position of the cards is relevant to how they are interpreted.

There are numerous different types of spreads. Certain spreads tend to work well for different types of questions. This guide will provide a starter spread, but you can research and find many predefined spreads. As you become more experienced, consider developing your own unique spreads.

Three-Card Spread

The past/present/future three-card spread is the best and most commonly used starting spread. This simple spread is ideal for novice Readers and simple questions. Cards are drawn and read in the following order: 1) Past, 2) Present, and 3) Future.

Past

Present

Future

1. **The Past:** This card symbolizes the Querent's past experiences, recent or distant, that pertain to the Querent's question.
2. **The Present:** This card represents the Querent's current situation.
3. **The Future:** This card indicates a possible future outcome for the Querent, or a goal the Querent should strive for regarding their question or issue. The Querent can have an impact on his or her future via their thoughts and actions.

Tips

Become familiar with your deck. Buy a journal and take a page to write about each card, starting with the Fool, in the Major Arcana, and going through all seventy-eight cards, in sequence.

Look at the pictures and use the explanations in this booklet to connect each card with one of your life experiences. Since the cards are archetypal, you have experienced all seventy-eight at least once. Perhaps you've experienced certain cards repeatedly. Write your corresponding life experience with each card in your journal.

The explanations in this booklet refer to the card being "upright" or "reversed". After shuffling, drawing, and turning over the cards, some may be upright while others will be upside down (or reversed). Reversed cards turn the meaning "upside down."

Pay attention to the symbolism in the artwork; the symbolism enhances, and provides nuance, to the meaning of the cards.

Tarot cards are not deterministic and life is not fated. The future is never set. The Querent can always alter his or her future by changing their course of action, changing their thoughts, or adjusting their feelings.
