Introduction

Reading Tarot cards can reveal insights into your past, present, or future. The premise is simple: the Querent asks a question, and then the Reader draws the cards and interprets the results.

Tarot reading has been used for divination since the 1700s, and every Reader develops his or her method for interpreting the cards. There are some fundamentals, but Readers are encouraged to explore and develop their own approach.

The Deck

A standard tarot deck contains seventy-eight cards: twenty-two Major Arcana cards and fifty-six Minor Arcana cards. But this deck is unique because it has 97 cards, 19 additional cards beyond the standard 78. There are 12 cards for the signs of the zodiac, 3 additional Major Arcana cards (Prudence, Charity, and Faith), and 4 elemental cards (Air, Earth, Fire, and Water)

The Major Arcana cards represent the archetypical moments that everyone experiences on their journey through life. Everyone begins life as the Fool, and ends life as the Fool.

The Minor Arcana cards represent the actions, thoughts, feelings, and material struggles that we all encounter in our lives.

Four suits and fifty-six cards make up the

Minor Arcana. Face cards consist of the Knave/Page, Knight, Queen, and King. Each of the four elements belongs to a suit, represented by a specific object:

- Fire to Clubs/Wands/Staffs
- Water to Cups
- Earth to Coins/Pentacles/Disks
- Air to Swords/Spears/Arrows

And each element corresponds to an aspect of human life:

- Fire/Action
- Water/Emotions
- Earth/Work
- Air/Thought.

Spreading the Cards

A spread is a layout for the Tarot cards which provides a framework for the reading. Spreads often follow a predefined theme where the position of the cards is relevant to how they are interpreted.

There are numerous different types of spreads. Certain spreads tend to work well for different types of questions. This guide will provide a starter spread, but you can research and find spreads for every type of question. As you become more experienced, consider developing your own unique spreads.

Three-Card Spread

The past/present/future three-card spread is the best and most used starting spread. This simple spread is ideal for novice Readers. Cards are drawn and read in the following order: 1) Past, 2) Present, and 3) Future.

Past

Present

Future

- **1. The Past:** This card symbolizes the Querent's past experiences that pertain to the Querent's question.
- 2. The Present: This card represents the Querent's current situation.
- **3.** The Future: This card indicates a possible future goal the Querent should strive for regarding their question or issue. The Querent can shape the future based on their thoughts and actions.

Tips

Become familiar with your deck by putting your thoughts in a journal. Take a page to write about each card, starting with the Fool and going through all seventy-eight cards.

Look at the pictures and use the explanations in this booklet to connect each card with one of your life experiences. Since the cards are archetypical, you have experienced all seventy-eight at least once. Write your corresponding life experience with each card in your journal.

The explanations in this booklet refer to the card being "upright" or "reversed". After shuffling, drawing, and turning over the cards, some may be upright while others will be upside down (or reversed). Reversed cards turn the meaning "upside down."

Pay attention to the symbolism in the artwork; the symbolism enhances, and

provides details, to the meaning of the cards.

Tarot cards are not deterministic and life is not fated. The future is never set. Querents can always alter their future by changing their course of action, changing their thoughts, or adjusting their feelings.
